

A Very Exciting Day for Building 9

I was honored to be a part of the ribbon cutting ceremony officially opening the Women's wing of building 9 for homeless female veterans.

We were joined by other service organizations as well as senators and representatives of the state. It was shown to all in attendance that the VFW and Auxiliary were there to support and assist with this new program.

Our organization had the greatest turn out (14 VFW/AUX) of all the veteran and other organizations attending this important and historical event.

The facility staff gave a briefing on the new wing and the programs offered there for female veterans. After the ceremony, we received a tour of the rooms in the wing and were invited for cake cutting, snacks and refreshments.
